

FalCon **eXtra** MXT Marker

MXT Marker

- 5-/6-spot markers
- Marker based algorithm **MarkerXtrackT** for automatic set-up and tracking (licensed by FhG IOSB institute)
- Dimensions:
 - Marker diameter / spot diagonal = 1.6
 - Single spot size = spot diagonal / 4
 - Spot angle = 90 deg (MXT-5) or 72 deg (MXT-6)

Note:

- The markers should show a high contrast.
- The markers should be absolutely mat, i.e. not glossy.
- The physical size of the markers depends on the imaging geometry and the camera resolution. All markers are free in scale!
- MXT and DOT markers (in standard sizes) can be ordered for example from the printing office „Druckerei Franz Maier“, Dorfener Straße 5, D-84424 Isen, Germany, Phone: +49 8083 644, Fax: +49 8083 908544, e-Mail: franz.maier@isen-druck.de.
